

**MINUTES OF THE COMMITTEE OF THE PUBLIC INFRASTRUCTURE,  
MUNICIPAL SERVICES, AND UTILITIES COMMITTEE MEETING OF THE CITY  
COUNCIL OF THE CITY OF COLUMBIA, ILLINOIS HELD MONDAY,  
SEPTEMBER 10, 2018 IN THE COUNCIL ROOM OF CITY HALL**

---

**I. CALL TO ORDER**

Chairman Ebersohl called the Public Infrastructure, Municipal Services, and Utilities Committee Meeting of the City Council of the City of Columbia, Illinois to order at 7:00 P.M.

Upon Roll Call, the following members were:

Present: Committee Members - Chairman Ebersohl and Aldermen Roessler, Reis, and Martens.

Other Aldermen Present: Aldermen Agne, Niemietz, Huch, and Holtkamp. Mayor Hutchinson was also present.

Absent: None.

Quorum Present.

Administrative Staff Present: City Administrator James Morani, City Attorney Terry Bruckert, City Clerk and Director of EMA Wes Hoeffken, Accounting Manager Linda Sharp, City Engineer Chris Smith, Director of Community Development Scott Dunakey, Community Relations and Tourism Coordinator Sue Spargo, Police Chief Jerry Paul, Deputy Chief of Police Jason Donjon, EMS Chief Kim Lamprecht, and Deputy Clerk Donna Mehaffey.

Guests: Mr. Tim Scheibe of Reliable Sanitation.

Chairman Ebersohl stated the meeting was called for the purpose of discussing: (1) Recycling Services.

**II. RECYCLING SERVICES**

Mr. Tim Scheibe of Reliable Sanitation addressed the Committee on the future of recycling services in Columbia. A four-page handout from Mr. Scheibe showed Prices Per Ton For Comingled Recycling for 2017/2018, Tonnage 2017/2018 for each month for Waterloo, Columbia, Dupo, Red Bed, Hecker, Maeystown, New Athens, Millstadt, and Scott Air Force Base, and a recycling page from Republic Services. The average 2018 tonnage for Columbia is 93 tons per month. He reported that tariffs placed on China in June and July started the problem as China is no longer accepting recycling from the United States. He said some communities are eliminating curbside

recycling altogether. The City's recycling materials are sent to Republic Services in St. Louis and he noted the City of Kirkwood's recycling vendor went out of business and that is the reason Kirkwood's recycling has stopped. Mr. Scheibe doesn't want to stop the recycling program in Columbia, but it is costing him an additional \$5,000 per month to keep it going. He also said there has been problems of streams of contamination in the recycling. There has been grass clippings, plastic bags and Styrofoam in the recycling materials, which contaminates the load. He said the City of Columbia does a good job of recycling but reminded the Committee that the residents need to be re-educated on what to recycle, which would decrease the amount of problems with contamination. Mr. Scheibe thought this situation was short term, but sees no end in sight.

To re-educate the residents, it was suggested by City Administrator James Morani to prepare a mailer with recycling best practices. The City can also post on the website and social media. It was mentioned there is currently a surplus in the City's refuse to cover the cost of the mailer. It was the consensus of the Committee to move forward with this plan.

Mayor Hutchinson said the City and Reliable Sanitation have had a great relationship for years. The extra cost of the recycling can be passed onto the residents and will be less than \$1.00 per month.

After discussion about when to do the fee increase and if the fee ordinance had to be adjusted, it was the consensus of the Committee to pass on the additional cost of the recycling as a surcharge for customers so it can be easily removed and to do it in late fall when the Reliable Sanitation contract annually increases per the All Items Category of the Consumer Price Index for all Urban Consumers as published by the Bureau of Labor Statistics of the United States Department of Labor. Mr. Morani will work with Mr. Scheibe to adjust the Reliable Sanitation contract. It was noted if the recycling issue goes away, Mr. Scheibe said they will go back to the original agreement terms (i.e., no surcharge).

It was noted that recycling is not mandatory in Columbia, however, Mayor Hutchinson stated that in major cities it is mandatory, and you may be fined if found contaminating the recycling stream.

### **III. ADJOURNMENT**

#### **MOTION:**

It was moved by Alderman Reis and seconded by Alderman Martens to adjourn the Public Infrastructure, Municipal Services, and Utilities Committee Meeting of the City Council of the City of Columbia, Illinois held Monday, September 10, 2018 at 7:30 P.M. Upon voice vote, Chairman Ebersohl and Aldermen Roessler, Reis, and Martens voted yea. **MOTION CARRIED.**

**MINUTES OF THE COMMITTEE OF THE WHOLE COMMITTEE MEETING OF  
THE CITY COUNCIL OF THE CITY OF COLUMBIA, ILLINOIS HELD MONDAY,  
SEPTEMBER 10, 2018 IN THE COUNCIL ROOM OF CITY HALL**

---

**I. CALL TO ORDER**

Chairman Ebersohl called the Committee of the Whole committee meeting of the City Council of the City of Columbia, Illinois to order at 7:32 P.M.

Upon Roll Call, the following members were:

Present: Committee Members - Chairman Ebersohl and Aldermen Agne, Niemietz, Roessler, Huch, Reis, Holtkamp, and Martens. Mayor Hutchinson was also present.

Absent: None.

Quorum Present.

Administrative Staff Present: City Administrator James Morani, City Attorney Terry Bruckert, City Clerk and Director of EMA Wes Hoeffken, Accounting Manager Linda Sharp, City Engineer Chris Smith, Director of Community Development Scott Dunakey, Community Relations and Tourism Coordinator Sue Spargo, Police Chief Jerry Paul, Deputy Chief of Police Jason Donjon, EMS Chief Kim Lamprecht, and Deputy Clerk Donna Mehaffey.

Guests: Mr. Josh Barcus of Stock and Associates, Engineer for Pitt Development Group, Mr. Kurt Stumpf of Columbia National Bank, Mr. Bill Berthold and Juso and Inesa Hodzic representing JIH Trucking, Mr. Alan Meitl of ECF, Inc., Mr. Dustin Row of Main Street Abbey, and Mr. and Mrs. Jim Lansing.

Chairman Ebersohl stated the meeting was called for the purpose of discussing: (1) Proposed Development at 1019 Valmeyer Road; (2) Special Event - Veterans Honor-Que; (3) Zoning Code Variance Applications for JIH Trucking; (4) Main Street Abbey Update; (5) POP-UP SHOP License Agreement/Signage; (6) Zoning Hearing Officer; (7) Elected Officials Salaries; (8) Other Items to be Considered; (9) Public Comments; and (10) Executive Session – 5 ILCS 120/2(c).

**II. PROPOSED DEVELOPMENT AT 1019 VALMEYER ROAD**

The proposed development at 1019 Valmeyer Road will consist of a new 6,000-square foot Mercy Medical Office Building to include three to five primary/family practice using 12 exam rooms, including a procedure room, covered drop-off area, easy access for patients, comfortable waiting/lobby areas, lab and blood draw areas.

Special Event - Veterans Honor-Que and Parade - 2 pages

Zoning Code Variance Applications for JIH Trucking - 15 pages

Main Street Abbey Update - 2 pages

POP-UP SHOP License Agreement/Signage - 8 pages

Zoning Hearing Officer - 5 pages

Elected Officials Salaries

City Engineer Chris Smith addressed the Committee and said the location is the old Video Exchange site. Mr. Smith provided a background history of the area. The site had already been permitted once and went through another development company to manipulate the site to make it developable for a commercial property which was permitted and approved. Someone now wants to develop on the site. Mr. Smith said when the new developer approached the City, he said they had a preliminary site plan which is a little more detailed than what the previous developer had submitted. Mr. Smith told the new developers that their plan needed to be submitted to the Illinois Department of Natural Resources (IDNR) to see if it needed to be permitted or not. It did need to be permitted by IDNR and they submitted their application, fees, and hydraulics and the plans were approved as proposed.

Mr. Smith reminded the Committee that the City has a flood plain ordinance that says the City has to comply with regulatory agencies and the City also has an additional requirement of compensatory storage in the flood plain. Mr. Smith said there has to be a balance of what goes in and what comes out of the flood plain. He said the developer is asking for an additional 121 cubic yards to be removed from the water shed, which is roughly 60 feet by 60 feet by 1 foot deep. Mr. Smith said the developer is asking to remove the material from our Admiral Trost Park Flood Plain site. Mr. Smith added that part of the material will be brought to the site and some may have to be removed because it is not good material.

Mr. Smith turned the meeting over to Mr. Josh Barcus of Stock and Associates, the consulting engineer for Pitt Development Group, who is the developer for Mercy. Mr. Barcus said they have completed some calculations on the property and as it exists from their survey today, there is about 923 cubic yards of void space that is below the established flood elevation of 427. He said they then did their site plan and calculated how much volume was below that elevation and they came up with 802 cubic yards. Mr. Barcus said in order to fulfill their compensatory storage requirements with the small site, they will need to find another spot in the City where they can take materials from within the water shed. Mr. Barcus understands that the previous developer had a Memorandum of Understanding (MOU) to do that at the Admiral Trost Park Flood Plain site so they would like to follow a similar method to remove the material out of the flood plain.

Mayor Hutchinson questioned if removing the material from the Admiral Trost Park Flood Plain would have a major impact; Mr. Smith responded that it would not. He said the amount to be removed from the park is not a large amount.

Alderman Roessler commented that he did not see any flooding at the bowling alley, Flooring Interiors, Valmeyer Road, etc. from the torrential heavy rains on Saturday morning and was impressed with how well the new culvert handled the water.

Mr. Kurt Stumpf of Columbia National Bank voiced his concerns to the Committee and agreed the culvert did function quite well, but is concerned if the culvert gets blocked up

and floods over to his area down the road, especially with the new development at the old Video Exchange site. Mr. Stumpf asked if anyone had gone down to the Admiral Trost Park after the heavy rains on Saturday where they have been excavating. Some aldermen acknowledged they had. Mr. Stumpf said he is not an engineer, but claimed you could tell in some areas of the park where there was additional silting. He is concerned when dirt is removed from a low-lying area and move it to an area that will be asphalted over, the asphalted area will not silt in anymore. He said the area from which you removed the ground is going to refill with silt and dirt and over many years if not maintained correctly. He also referenced the levee when you are coming into Columbia; he said the levee is much shallower than when it was dug out 40 years ago. He said the same thing will happen in the creek bottom. He added silting will occur eventually when soil is removed. Mr. Stumpf also said he is concerned about traffic with only one exit on Valmeyer Road and the safety of the area as a result of the planned development. Mr. Stumpf lastly said the new development would be a great neighbor for the bank.

It was the consensus of the Committee to allow the developer to use fill material from the Admiral Trost Park Flood Plain site for the proposed Mercy Clinic development at 1019 Valmeyer Road.

### **III. SPECIAL EVENT - VETERANS HONOR-QUE**

Director of Community Development Scott Dunakey presented the Special Event Application for the Veterans Honor-Que to be held at the Columbia American Legion Park November 2-4. The Veterans Honor-Que event is not new this year, but a Veterans Parade will be added. The parade will be held on Saturday, November 3, beginning at 10:00 a.m. at the old Catholic Church parking lot on South Main Street, travel north, and will end at the Columbia American Legion Park on East Locust Street. Mr. Dunakey said since the parade is new this year, he wanted to have the Committee review before consideration at the next City Council meeting.

It was the consensus of the Committee to move forward with the Veterans Honor-Que Special Event with the parade for consideration at the next City Council meeting.

### **IV. ZONING CODE VARIANCE APPLICATIONS FOR JIH TRUCKING**

Mr. Dunakey addressed the Committee on the Zoning Code Variance Applications (curbing and recycled asphalt for pavement) for JIH Trucking, said they have provided all the information, and is open for discussion and consideration. Mr. Bill Berthold, consulting engineer, and the applicants; Juso and Inesa Hodzic of JIH Trucking, were in attendance.

Committee members questioned Item 2-D of the two page handout from Frontenac Engineering - Asphalt Millings with a gravel base increases infiltration by approximately 20% from what? Mr. Berthold said hard surface, concrete, etc. The members also

questioned the large amount of 70 parking spaces, 70 trailers, renting other spaces for RVs, boats, etc., possible approval subject to a timeline when the parking lot would be paved, looks like a large project that the business has not grown into yet, questioned the hardship, can't find where there is a permitted use for a tractor trailer business in BP-1 or BP-2 zoning, concern of business being like trucker row down by the river in St. Louis, concern of people spending the night on the property, can the City stipulate that the business owner owns the trailers and there will be no overnight stays, concerns of the fencing, if this area is right for this type of business, seems more like an industrial area business, concern if refueling done on the property or fuel tanks will be installed, and time frame for variance applications and special use permit decisions.

Mr. Bill Berthold of Frontenac Engineering addressed the Committee. He said JIH Trucking is looking to the future for more growth regarding the 70 parking spaces. Not all 70 trailers are in and out every day as some are gone three to five days and park for the weekend. He said it is not a one-to-one ratio. He said 14-23 trailers could be coming and going each day. He said not all 70 trailers would be coming to park and 70 trailers leaving in the morning; he said they are staggered. He also said they were planning to rent out other parking spaces for RVs, boats, etc. Mr. Berthold said there would be no overnight stays in the trucks.

Mr. Morani said the tractor trailer business not being a permitted use in the BP-1 or 2 is an interpretation issue. Mr. Dunakey said it was staff's interpretation that the business could be allowed, but said staff can perform additional research of the code. City Attorney Terry Bruckert said the City has a right to interpret the language in the code and Mr. Morani said Alderman Holtkamp raised an interesting point about this type of business not being a permitted use in a BP-1 or 2 district.

Mayor Hutchinson discussed a possibility that the Special Use Permit could stipulate that only the property owner's property could be stored on the site, no overnight stays in the truck, and the intent of the application was not for other people's storage of RVs and boats. City Attorney Terry Bruckert said a conditional approval could be considered. Mr. Dunakey stated that a Special Use Permit runs with the land and could apply to any other applicants down the road. He added that no one spending the night and only trucks owned by the trucking company located at the site could be a condition of approval, but it may be difficult to enforce.

Mr. Juso Hodzic, owner of JIH Trucking, spoke before the Committee. Mr. Hodzic said that he will be leaving his truck at the proposed location. He said right now, he only needs 10-20 parking spaces. Currently, their business is located on Meramec Bottom Road in an industrial park in St. Louis. He is not planning to hire a mechanic, the trucks will not be idling, and there will only be an office and a small shop for him to do some of the repairs himself. He also said there would be no fuel tanks or re-fueling on the property.

Mr. Berthold said JIH Trucking would not need 70 parking trailer storage spaces right now. Mr. Berthold said this could be phased in and that they would start with what they needed and then grow. Mr. Berthold said they could go back and look into a phasing plan or other ways to address the City's concern about the paving if the Committee would like.

The nearby concrete plant and the truss company was discussed briefly by the Committee.

Mr. Alan Meitl, president and owner of ECF, Inc. located at 1909 Westgate Drive, addressed the Committee. He said the proposed development would be between his company and another company at the end of the cul-de-sac. He wanted to go on record to say he agrees with Aldermen Niemietz and Holtkamp. His concerns are the time frame, how long it will take to fill up the property, the maintenance in the meantime, the parking lot not paved with hard-surface material, the parking lot possibly breaking apart from the freeze and thaw and coming out onto the roads. He said he is looking out for the best interest of his employees, traffic-wise, the condition of the subdivision, and the overall impact to the business. He asked the Committee to please reconsider the variance applications for JIH Trucking.

Alderman Roessler questioned Mr. Meitl how the area handled the recent heavy rains. Mr. Meitl said his building was clear of water and said half of the cul-de-sac filled up with water. He added that if you do hard paving for that large of a site, regarding JIH Trucking, you will definitely need storm water containment. Mr. Meitl said the area is working very well right now, but the other side of the railroad tracks was flooded.

Mr. Morani confirmed there was no time frame on final action for the Special Use Permit and the variances approval will be a moot point if the Special Use Permit is ultimately not approved. He added there is a timeline for the public hearing and the zoning report issued to the City Council, but no timeline after it reaches the Council.

## **V. MAIN STREET ABBEY UPDATE**

Mr. Dunakey reported that Main Street Abbey had an update to be presented to the Committee.

Mr. Dustin Row of Main Street Abbey informed the Committee of all of their successes with wedding bookings at the venue. He explained they would like to add a 40-foot by 40-foot courtyard with a heated tent plus a pavilion storage building for use between the wedding ceremony and reception on the side of the banquet hall.

Mr. Dunakey commented that any changes for Main Street Abbey have to come back as a new application and this is an advance notice.

It was the consensus of the Committee that they were amenable with the update for the proposed courtyard with heated tent and pavilion storage building at the Main Street Abbey and understood the developer would have to apply for a revised application for the proposal.

## **VI. POP-UP SHOP TEMPORARY USE LICENSE AGREEMENT/SIGNAGE**

Mr. Dunakey presented the POP-UP SHOP Temporary Use License Agreement for the Committee's review. On Exhibit A Terms of Usage, General Rules and Requirements, last page, item 14 will be deleted as it is a duplicate. Alderman Holtkamp questioned the last sentence of the Prohibited Items on the last page of the same document. He felt it was not necessary and should be deleted. Community Relations and Tourism Coordinator Sue Spargo said that item 6 under the License Selection covers the City with regard to prohibited items. With item 6 and the removal of the last sentence of Prohibited Items working together, this will cover the City of Columbia for any undesirable items to be sold on the premises.

It was the consensus of the Committee to move forward with the POP-UP SHOP Temporary Use License Agreement and Exhibit A: Terms of Usage with the changes discussed.

Mr. Dunakey presented the proposed POP-UP SHOP signage. He referenced a handout that was distributed to the Committee showing all of the proposed signage in front of the Welcome Center/Shoemaker Schoolhouse that was photo shopped and showed the signs from all different angles and views. Mr. Dunakey also showed the proposed signage with an overhead projector. He reviewed the two options. Mr. Dunakey said two things are needed: Good advertising and good signage. Both options have an electronic message board and will advertise the POP-UP SHOP, the vendors, and upcoming community events. Mr. Dunakey said the Welcome Center sign will need to be removed. Option 1 sign is 10 feet tall and Option 2 sign is six-feet tall.

Mr. Dunakey said staff preferred the Option 1 sign. Option 1 sign was more visible when vehicles were sitting at the stop lights at the intersection. Option 2 sign was not visible with the vehicles at the stop lights. For Option 1, there would have to be a sign variance on the height of the sign since it is 10-feet tall and the maximum is six-feet tall. There will also have to be a sign variance on the location since the sign will be closer than 20 feet from any public right-of-way and will be requesting a zero-foot setback from the established property line.

**Discussion:** Alderman Roessler was concerned of any repercussions with all of the variances lately and the City has been strict with them; variances are all different from a staff perspective, particularly when comparing land use versus signage; Alderman Niemietz supports Option 1 since it will eliminate all the banners at the location and would be under the City's control, plus the sign would be more visible; Alderman Agne

complimented the presentation, but said "City of Columbia" doesn't need to be on the sign because people know where they are and supported Option 2. Mr. Dunakey said "City of Columbia" should stay on the sign as it is branding for the City.

Mr. Morani said he has had conversations with the Illinois Department of Transportation (IDOT) and the City will have to send the sign information to them. He added IDOT will not allow advertising from private businesses on their property and the City can only use City or community events for the proposed sign.

It was the consensus of the Committee to move forward with Option 1 sign for the POP-UP SHOP at the Welcome Center/Shoemaker Schoolhouse location and have Mayor Hutchinson sign the variance application.

## **VII. ZONING HEARING OFFICER**

Mr. Dunakey proposed that the City of Columbia look into a legal professional to take the place of the Zoning Board of Appeals (ZBA) as a Zoning Hearing Officer. The professional would look at the law and rule on zoning issues. City Attorney Terry Bruckert said the City of O'Fallon has a Zoning Hearing Officer. Mr. Morani said it has been difficult to fill positions on the ZBA and the City is down to four members, due to a recent resignation. He added the Village of New Baden used a Zoning Hearing Officer, is similar to an administrative law judge, and the City Council will still have the right to review the decisions. Mr. Morani said there will still be a transcriber of the public hearing and the Zoning Hearing Officer will issue a written decision. The fees for the Zoning Board of Appeals-Notice of Appeal may need to be adjusted on the fee schedule to cover applicable costs for the new system.

It was the consensus of the Committee to consider a Zoning Hearing Officer for the City of Columbia. Mr. Morani said Mr. Dunakey will work with City Attorney Terry Bruckert to draft an ordinance and they will bring it back to a future committee meeting for review.

## **VIII. ELECTED OFFICIALS SALARIES**

Mr. Morani referenced a Worksheet of Elected Officials Compensation. Mr. Morani said a new Elected Officials salary ordinance had to be completed at least 180 days before the next term of office for aldermen. It was recommended a proposed ordinance will need to be presented for consideration no later than the first meeting in October. Discussion included what other municipalities paid their elected officials, number of meetings per month, quantifying the increase, Columbia is one of the lowest-paid municipalities in the area for elected officials, consider a 3% increase to attract residents and future generations to run for office, 3% increase is not unreasonable, questions about what percentage staff had received, and to propose a 2.5% increase to be on the conservative side.

It was the consensus of the Committee to increase the Elected Officials Compensation by 2.5% for the officials elected at the next regular election on April 2, 2019 and to prepare an ordinance for consideration at the first meeting in October.

**IX. OTHER ITEMS TO BE CONSIDERED**

There were no other items to be considered.

**X. PUBLIC COMMENTS**

Mr. and Mrs. Jim Lansing were present and provided an update of the creek situation by their home in the Gedern Estates subdivision with the recent heavy rains.

**XI. EXECUTIVE SESSION - 5 ILCS 120/2(c)**

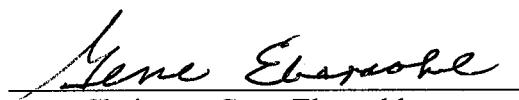

Chairman Ebersohl inquired if there was a need to go into Executive Session. There was none.

**XII. ADJOURNMENT**

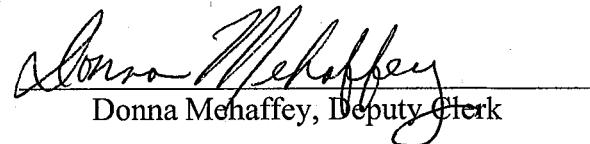

**MOTION:**

It was moved by Alderman Reis and seconded by Alderman Martens to adjourn the Committee of the Whole committee meeting of the City Council of the City of Columbia, Illinois held Monday, September 10, 2018 at 9:25 P.M. Upon voice vote, Chairman Ebersohl and Aldermen Agne, Niemietz, Roessler, Huch, Reis, Holtkamp and Martens voted yea. **MOTION CARRIED.**

Minutes taken by:

Chairman Gene Ebersohl  
Committee of the Whole

Donna Mehaffey, Deputy Clerk

**MINUTES OF THE PUBLIC SAFETY COMMITTEE MEETING OF THE CITY  
COUNCIL OF THE CITY OF COLUMBIA, ILLINOIS HELD MONDAY,  
SEPTEMBER 10, 2018 IN THE COUNCIL ROOM OF CITY HALL**

---

**I. CALL TO ORDER**

Chairman Ebersohl called the Public Safety Committee Meeting of the City Council of the City of Columbia, Illinois to order at 9:25 P.M.

Upon Roll Call, the following members were:

Present: Committee Members - Chairman Reis and Aldermen Hutch, Holtkamp, and Martens.

Other Aldermen Present: Aldermen Ebersohl, Agne, Niemietz and Roessler. Mayor Hutchinson was also present.

Absent: None.

Quorum Present.

Administrative Staff Present: City Administrator James Morani, City Attorney Terry Bruckert, City Clerk and Director of EMA Wes Hoeffken, Accounting Manager Linda Sharp, City Engineer Chris Smith, Director of Community Development Scott Dunakey, Police Chief Jerry Paul, Deputy Chief of Police Jason Donjon, EMS Chief Kim Lamprecht, and Deputy Clerk Donna Mehaffey.

Guests: None.

Chairman Reis stated the meeting was called for the purpose of discussing: (1) Streets of Concern for Emergency Vehicles.

**II. STREETS OF CONCERN FOR EMERGENCY VEHICLES**

Chairman Reis referenced two pages listing streets of concern for Emergency Vehicle Access for Columbia EMS and the Columbia Fire Protection District (CFPD) and wanted direction from the Committee for staff.

Discussion included: width of the streets of concern, if a street is less than 25 feet wide and vehicles parked on both sides the CFPD has issues getting through, the CFPD platform fire truck needs 18 feet to set up in the street, the Old Town area streets are all very narrow, some of the street parking in Old Town is the only parking for the home, the number of vehicles parked at the home or on the street especially if there are young adult drivers, the cost of signage for no parking signs or one sided parking signs, how to go about doing this as either in sections around town when there is construction, do

gradually, do piece by piece, go about completing all at one time, will be a daunting task, will take a lot of staff time, need to invite the public for a meeting, dead end streets, and firemen practice on certain narrow streets.

City Administrator James Morani recommended to review all of the narrow streets in Columbia at the same time and it was the consensus of the Committee to proceed with Mr. Morani's recommendation.

### **III. ADJOURNMENT**

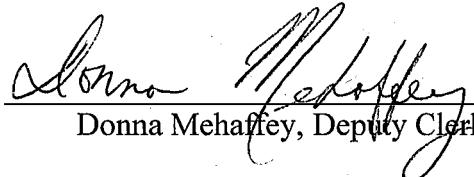

#### **MOTION:**

It was moved by Alderman Martens and seconded by Alderman Huch to adjourn the Public Safety Committee Meeting of the City Council of the City of Columbia, Illinois held Monday, September 10, 2018 at 9:43 P.M. Upon voice vote, Chairman Reis and Aldermen Huch, Holtkamp, and Martens voted yea. **MOTION CARRIED.**

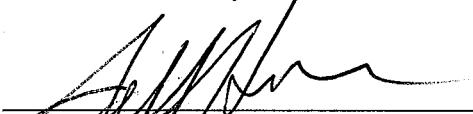

Minutes taken by:
